

Introduction to Certasynergy

We are an AI powered initiative that seamlessly integrate the physical and digital world, designed to unlock new pathways to financial freedom and create lasting economic opportunities for people across the globe.

At Certasynergy, we are redefining the future of sustainable investing by merging the rapid growth of electric mobility with accessible opportunities for wealth creation. Our innovative model connects investors directly to the expanding electric vehicle (EV) charging infrastructure, allowing you to earn from every charge made by EV users. Its straightforward, sustainable income is fueled by the global transition to green transportation.

Investment Plans

The company has three investment plans that work perfectly well. They are:

Level 2 Investment Plan

Minimum investment - \$300

Maximum - \$4999

ROI- 1.25% daily /8.75% weekly

Duration – 7 days.

Level 3 Investment Plan

Minimum investment - \$5000

Maximum - \$19999

ROI- 1.5% daily / 31.5% three weeks

Duration – 21 days.

Automated Robotic Investment Plan

Minimum investment - \$20000

Maximum – ∞

ROI- 1.75% daily

Duration – 30 days/52.5 monthly

How it Works

To participate in this exceptional opportunity, follow these straightforward steps:

- **Registration:** Initiate the process by creating an account with the company, providing requisite personal information, including your full name, email address, and a valid cryptocurrency wallet address (accepting BTC, ETH, USDT, SOLANA, DOGE, or TRX).
 - **Account Activation:** Activate your account by making an initial deposit, selecting from various investment plans tailored to your preferences. This deposit will trigger the activation of your chosen investment plan.
 - **Withdrawal or Reinvestment:** Upon maturity of your investment plan, you have the flexibility to either withdraw your earnings or reinvest them. Withdrawals are processed directly to your designated wallet, whereas reinvestment enables continued growth of your account balance. Notably, withdrawals are exempt from fees.
- To illustrate, consider the Level 2 Plan, which offers a daily

return of \$1.25 (Equivalent to 1.25% interest) on an initial investment of \$100. Upon plan maturity, your total balance would be \$108.75, providing the option to either withdraw or reinvest this amount.

Affiliate system

Certasynergy is unequivocally not a multi-level marketing (MLM) system. Rather, it is a well established and time tested business model, characterized by a diverse range of independent revenue streams. These revenue streams are not solely dependent on recruitment or referral-based income, thereby ensuring the company's financial stability and sustainability. Notably, the company offers a referral commission of 7.5% exclusively on direct referrals, with the express intention of incentivizing investors to focus their efforts on driving growth, expansion, and revenue generation. This strategic approach is designed to encourage investors to contribute meaningfully to the company's success, fostering a collaborative and motivated community of investors who are invested in the company's long-term prosperity

Executive Summary

Certasynergy is an AI powered initiative that bridges the gap between the physical and digital worlds, creating new avenues for financial freedom and global economic growth. Our mission is to redefine the landscape of sustainable investing by combining the accelerating momentum of electric mobility with inclusive opportunities for wealth creation.

Through our innovative investment model, Certasynergy empowers investors to participate directly in the rapidly expanding Electric Vehicle (EV) charging infrastructure. Each investor earns returns from real, measurable activity, every charge made by EV users. It's a simple yet transformative approach: sustainable income driven by the global shift toward green transportation and clean energy.

At Certasynergy, we're not just investing in technology, we're investing in a smarter, cleaner, and more connected future.

About Certas

Certas is a renowned name in the European energy sector, with established operations across France, Denmark, Luxembourg, England, and Ireland. Building on its strong foundation in traditional energy services.

Certas has recently expanded into the Electric Vehicle (EV) sector, a strategic move aimed at driving the transition toward sustainable mobility. The company's mission is to power a world where people, businesses, and nature thrive in harmony, reflecting its commitment to innovation, clean energy, and environmental stewardship.

Market Overview

Certas has developed a comprehensive roadmap built on three core investment strategies: Charging Infrastructure, Battery Technology, and becoming a Global Leader in EV and Clean Energy. These strategic pillars outline the company's long-term vision for sustainable growth and leadership in the evolving electric mobility market.

At present, Certas is actively implementing the first phase of this roadmap, Charging Infrastructure Development, which serves as the foundation for widespread EV adoption. The company is creating diverse investment opportunities through three advanced categories of charging solutions:

Level 2 Charging Stations: Designed for homes, workplaces, and public spaces, offering efficient and accessible charging.

Level 3 Charging Stations (DC Fast Charging): High-speed solutions ideal for commercial use and long-distance travel.

Automated Robotic Charging Stations: Innovative systems that combine automation and precision design for autonomous EV.

Through these initiatives, Certas is positioning itself at the forefront of Europe's clean energy transition and electric vehicle revolution.

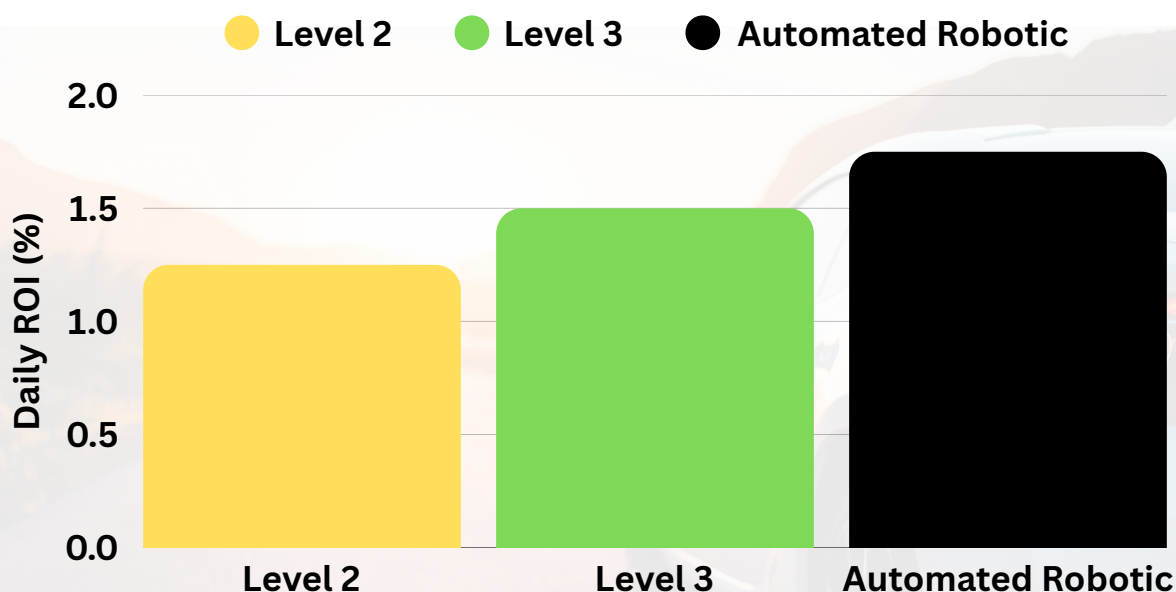

Investment Overview

At Certasynergy, we are building a bridge between technology and sustainable finance. Our AI powered initiative integrates the physical and digital worlds to unlock new pathways to financial freedom while promoting global clean energy adoption. Below is an overview of our three high performing investment plans.

Investment Plan	Min (USD)	Max (USD)	Daily Roi (%)	Duration
Level 2	300	4999	1.25	7 days / 8.75%
Level 3	5000	19999	1.50	21 days / 31.5%
Automated Robotic	20000	∞	1.75	30 days / 52.5%
